Welcome to the 1998 KAPS Annual Conference. I hope you all have had a great start-up in your school districts, and are fired up for another great KAPS Conference. - NASP: state organization's archives, history - response due Nov. 1 - any volunteers?
- Other new or old business
- Adjourn, and have a great conference! Many thanks to all of you!

One last thing. As I tried to drum up enthusiasm for this conference, several "jaded" ex-KAPS members asked me "what has KAPS done for me lately?" I believe it should be one of our goals this year to establish a report card, to account for the goals KAPS has met, and how this organization has improved the quality of service to the children of Kentucky. Please be prepared to list the contributions that KAPS has made in your district. Thank you.
